

BARCODATA 708

Compact, High Performance Data Projector

The BARCODATA 708 is a high performance, super data projector designed to project ultra sharp, crystal clear images from a wide range of PC graphics boards on screens up to 20 ft/6 m wide. It offers an outstanding array of technical features and a compact, lightweight design, which makes it ideally suited for a wide range of presentation and training applications for medium-sized audiences, such as boardroom meetings, training sessions, trade shows, teleconferencing centers and multimedia events,...

Broad Compatibility

- Horizontal autolock scan frequency of 15-69 kHz
- Vertical autolock scan frequency of 37-210 Hz
- Standard Video (NTSC, PAL, SECAM), S-Video (S-VHS, Hi-8) and professional Component Video (Y, R-Y, B-Y)
- RGB signals from a wide range of PC graphics boards with resolutions up to 1280 by 1024 pixels/60 Hz
- Wideband 75 MHz RGB amplifiers
- A full complement of input signal connections

Superb Image Quality

The BARCODATA 708 displays crystal clear, true-color images on screens up to 20 ft/6 m wide.

- New proprietary 7" CRTs
- High brightness F1.03 lenses
- Built-in line doubler or line multiplier (optional)
- Built-in IRIS³ automatic alignment system aligns on-screen convergence and geometry in less than 2.5 minutes

New!

Now with Built-in
IRIS³ Auto-Convergence
and Auto-Geometry

BARCO

Technical Specifications

Light Output

At 10 % peak white: 1,100 lumens

ANSI lumens:

Economy mode: 130 ANSI lumens

Normal mode: 170 ANSI lumens

Boost mode: 200 ANSI lumens

CRTs

High brightness liquid cooled 7" CRTs
(5.4" useable phosphor area)

Lenses

High-definition F1.03 lenses with a combination of glass and plastic aspherical elements, with center+ edge focus adjustment

Screen Size

Min 4.6' x 3.5' / 1.4 m x 1.05 m

Max 20' x 15' / 6 m x 4.50 m

Scan Frequencies

Horizontal 15-69 kHz autolock

Vertical 37-210 Hz autolock

Minimal Retrace Time

Horizontal < 3.3 µs

Vertical < 450 µs

RGB Bandwidth

75 MHz [-3 dB]

Horizontal Linearity

< ±1.5 % distortion throughout the full horizontal frequency range

Optical Resolution

10 lp/mm

Inputs

- Video (NTSC 3.58, NTSC 4.43, PAL, SECAM) input on BNC-connector
- 4-pin S-Video (Y/C) input
- R(R-Y)/G(Y)/B(B-Y)/S input on BNC-connectors, sync on green or separate sync, standard sync or Tri-level sync
- RS-232 input (Loop-Through) for projector control through PC

Special Features

- CRT drive in 3 modes: normal mode, economy mode for longer life time of the CRTs, and boost mode for special applications
- External auto-diagnosis LEDs for ease of maintenance
- Superb color reproduction through Color Transient Improvement, Automatic Black Level and Gamma-tracking

- On-screen menus selectable between English, French, German and Spanish
- 32 frequency-related memory banks
- Effective on-screen display
- LDI (Linear Digital Interpolation)
- Ability to set parameters to midposition
- Color temperature adjustment (3200 K, 4900 K, 6500 K, 9300 K or custom)
- Hand grips on the side of the projector facilitates carrying
- Discrete adjustable Scheimpflug correction in 3 discrete steps, for optimal top-bottom and left-right focussing in different installations
- Built-in IRIS³ Auto-Convergence and Auto-Geometry alignment system
- Standard Windows Control Software included

Remote Control

Backlit user-friendly infrared remote control for control of:

- Source switching
- User settings per source
- Geometry per source (password protectable)
- Convergence per source (password protectable)

Power Consumption

Max. 450 Watts

Dissipation : Max. 1,537 BTU/hr

Safety Regulations

The BARCODATA 708 complies with UL 1950 and EN 60950
